

*Curriculum Vitae*  
 Updated 12 / 2009  
 Jussi Jääskeläinen

Address Vanha Viertotie 1 A 6, 00350 HELSINKI  
 Telephone +358-40-554 3689  
 E-mail jussi.jaaskelainen@citrus.fi  
 Year of birth 1970  
 Nationality Finn

I'm "Jack of all trades" whose skills cover Unix administrator tasks, DBA tasks, Delphi architect tasks and many other too. I'm person who likes demanding and challenging assignments, situations where I can learn new things and solve problems, everyday.  
 I can work as "lonely rider" or as a part of team.  
 I'm systematic, neat, trustworthy and punctual person who is capable to take command in team, if necessary.

## Main Roles

### System Administrator, Senior

Professional skills	Years	Months	Last Used	Evaluation
Server implementation	12		2008	Senior
Deployment and installation	12		2009	Senior
<b>Methods, tools and technologies</b>				
Linux	12		2008	Senior
AS/400	2		2004	Junior
<b>Business knowledge</b>				
Accounting	4		2008	Professional
Specialized software development	7		2007	Professional
<b>Summary</b>				
System administrating at *nix environment is one of my interest areas. This is area where I want to be well respected specialist or "guru". My long history and LPI certifications of Linux supports that. I'm capable and keen learner for new information of never ending field of IT.				

### Software Developer, Senior

Professional skills	Years	Months	Last Used	Evaluation
Software development	10		2007	Professional
Requirement specifications	10		2007	Professional
Functional design	10		2007	Professional
Server implementation	12		2007	Professional
Deployment and installation	10		2007	Professional

Design and implementation	10	2007	Professional
<b>Methods, tools and technologies</b>			
Delphi	10	2007	Senior
Java	1	2005	Junior
WebSphere application server	1	2006	Junior
MS SQL Server	4	2007	Professional
<b>Business knowledge</b>			
Accounting	4	2007	Professional
Specialized software development	7	2007	Professional
<b>Summary</b>			
I have done long work history as a Delphi programmer, but as years goes past, my point of interest as shifted to other challenges. Programming as a programmer is still revarding, when it happens small pieces.			

## Database Administrator, Senior

Professional skills	Years	Months	Last Used	Evaluation
Server administration	9		2007	Professional
Deployment and installation	9		2007	Professional
<b>Methods, tools and technologies</b>				
Microsoft SQL Server	8		2007	Professional
MySQL	1		2007	Professional
<b>Summary</b>				
I have done DBA work at different platforms during years, with small and big (Terabyte size) databases, most of them at 24/7 environment. Certificates of Oracle 11g and MSSQL Server 2005 is one proof of my knowledge, but I know, I need and I want to learn new things every day. I'm not guru yet.				

## Skills

Roles	Years	Months	Last Used	Evaluation
Technical Administrator	7		2007	Professional
Development Manager	2		2004	Professional
IT-Specialit	1	6	2006	Professional
Software developer	10		2007	Professional
Substitute of CEO		3	2004	Junior
Support specialist (tier-3)		3	2006	Professional
Support specialist (tier-1)	2		1996	Professional
<b>Professional skills</b>				
Server administrating	13		2009	Senior
Software development	10		2007	Professional
Requirement specifications	11		2008	Professional
Server implementation	12		2007	Senior
Deployment and installation	10	4	2009	Senior
Deployment planning	10		2006	Professional
Test planning	10		2006	Professional
Testing and test reporting	10		2006	Professional
Technical support	11	6	2008	Professional
Maintenance	10		2006	Professional
Maintenance planning	12		2006	Professional
Computer Networking	12		2006	Professional

Usability analysis	9	9	2002	Professional
Database design – modeling	9	9	2002	Professional
Systems security architecture, specification and integration	4		2006	Professional
Database Administration and operation	10	4	2009	Professional
<b>Business knowledge</b>				
Telecom		3	2006	Junior
Accounting	4		2006	Professional
Specialized software development	7		2007	Professional
Support services	2		2006	Professional
Banking		2	2007	Junior

## Methods, Tools and Technologies

**Technical skills are measured in form of expertise.**

Junior = has basic knowledge

Professional = can be considered as professional

Senior = professional who has more experience and deeper understanding

Expert = superior skills

Programming and scripting languages	Years	Months	Last Used	Evaluation
Delphi	10		2007	Senior
Java	1		2006	Junior
Perl	1		2004	Professional
PHP	1		2006	Junior
C/C++	3		2002	Professional
Cobol	2		1990	Junior
HTML	7		2006	Professional
<b>Databases</b>				
MS SQL Server	8		2007	Senior
MySql		6	2007	Professional
<b>Server applications</b>				
IBM WebSphere Server	1		2006	Junior
<b>Development tools</b>				
Eclipse	2		2006	Professional
<b>Version management tools</b>				
CVS	2		2006	Professional
<b>OS</b>				
Windows	12		2008	Senior
Linux	12		2008	Senior
<b>Other</b>				
Rave	2		2004	Professional

## Project Experience

<p><b>Project name:</b> Nokia NOL Solaris Administrator</p> <p><b>Customer:</b> Sun Microsystems Oyj</p> <p><b>Time involved:</b> 06/2009 – 11/2009</p> <p>6 months</p>	<p><b>Description of project:</b> Adminstrating Solaris 9 and 10 servers, where different Nokia teams had their end user services running.</p> <p><b>Own role:</b> Working as UNIX administrator, executing work orders (tickets) and resolving different problems. NOL, CCE NOL, CuDM and e-Learning.</p> <p><b>Professional Skills:</b> Server Administrating Service Administrating Deployment and installation</p> <p><b>Main Tools:</b> SSH ITMS Tool (Ticket system) ICM Tool (Ticket system)</p>
<p><b>Project name:</b> NSN NOLS Solaris Administrator</p> <p><b>Customer:</b> Sun Microsystems Oyj</p> <p><b>Time involved:</b> 02/2009 –05/2009</p> <p>4 months</p>	<p><b>Description of project:</b> Adminstrating Solaris 9 and 10 servers, where different NSN teams had their end user services running.</p> <p><b>Own role:</b> Working as UNIX administrator, executing work orders (tickets) and resolving different problems. NOLS, SWS, IPM-E.</p> <p><b>Professional Skills:</b> Server Administrating Service Administrating Deployment and installation Database Administration and operation</p> <p><b>Main Tools:</b> SSH ICM Tool (Ticket system)</p>
<p><b>Project name:</b> Nokia eStore technical key user</p> <p><b>Customer:</b> Nokia Oyj</p> <p><b>Time involved:</b> 11/2007 –1 0/2008</p> <p>1 year</p>	<p><b>Description of project:</b> Provide customers possibility to buy Nokia products directly from Nokia country shops.</p> <p><b>Own role:</b> Working as a interface between Nokia users (online shop managers, adverticing agencies) and third party eStore platform provider.</p> <p>Supporting business operations Supporting change requests Assess in incident and problem management User account management Assisting with technical elements of new projects/developments (new country deployments / business development projects) Technical troubleshooting</p> <p><b>Professional Skills:</b> Rquirement specification Technical support</p> <p><b>Main Tools:</b> Quality Center Keynote</p> <p><b>Business area:</b> eCommerce</p>

<p><b>Project name:</b> Phone-client</p> <p><b>Customer:</b> OKO</p> <p><b>Time involved:</b> 07/2007 – 08/2007</p> <p>1 month</p>	<p><b>Description of project:</b> Goal was to extract wanted information from phone system using RS-232 with Siemens HiPath API. Program is in use at 40 work stations. My duty was create two programs, windows service what listens RS traffic and decode it and windows client what presents that data in human readable form.</p> <p><b>Own role:</b> Software Architect Software Developer</p> <p><b>Professional Skills:</b> Software architecture design and integration</p> <p><b>Main Tools:</b> CodeGear Delphi for Win32</p> <p><b>Others:</b> StarCaM (phone debugger)</p> <p><b>Business area:</b> Banking</p>
<p><b>Project name:</b> DB Administration</p> <p><b>Customer:</b> Sulake Corporation Oy</p> <p><b>Time involved:</b> 04/2007 – 06/2007</p> <p>2 months.</p>	<p><b>Description of project:</b> Taking care of daily base DB administrating including solving DB related problems, optimizing and upgrading servers and creating server scripts. 30 servers, few Terabytes of data and 78 million users. Sulake HQ have almost 200 workers from over 20 countries, working language is English.</p> <p><b>Own role:</b> Database administrator</p> <p><b>Professional Skills:</b> Database Administration / Operation Server Administration / Operation Script development</p> <p><b>Methods, tools and technologies:</b></p> <p><b>Main Tools:</b> MySQL Enterprise, MySQLd_Multi</p> <p><b>Others:</b> Unix variants, MySQL (command line tools), ssh</p> <p><b>Business area:</b> online community entertainment and media</p>

**Project name:**  
Confidential  
**Customer:**  
Confidential  
**Time involved:**  
01/2007 – 06/2007  
5 months

**Description of project:**  
Confidential  
**Own role:**  
Software developer, programmer  
**Responsibilities:**  
Develop software as described at project documentation  
**Professional Skills:**  
Requirement specifications  
Test planning  
Software development  
End user documentation (raw version)  
**Methods, tools and technologies:**  
**Main Tools:**  
Delphi, Oracle  
**Others:**  
Windows, Word, Excel  
**Business area:**  
Confidential

**Project name:**  
Home servers  
**Customer:**  
Myself  
**Time involved:**  
04/1994 –

**Description of project:**  
To install and upkeep Linux at home  
**Own role:**  
Root  
**Professional Skills:**  
Requirement specifications  
Server administrating  
Server implementation  
Maintenance  
Maintenance planning  
Computer networking  
Test planning  
Testing  
Software development  
Installation  
**Methods, tools and technologies:**  
**Main Tools:**  
Linux, Apache  
**Others:**  
PHP, Perl

**Project name:**  
OEM-support  
**Customer:**  
All major VPN-firewall  
companies  
**Time involved:**  
03/2006 - 06/2006  
3 months

**Description of project:**  
Taking care of OEM-support of customer's who used company's product to develop their own product.

**Own role:**  
Tier-3 support

**Responsibilities:**  
To find solutions to presented problems

**Professional Skills:**  
Technical support  
Test planning  
Software patch development

**Methods, tools and technologies:**

**Main Tools:**  
Linux, C/C++

**Other:**  
Windows

**Business area:**  
Telecommunications

**Project name:**  
ePayslip  
**Customer:**  
WM-data  
**Time involved:**  
11/2004-03/2006  
17 months

**Description of project:**  
Administration and develop of company's ePayslip service.

**Own role:**  
Specialist

**Professional Skills:**  
Deployment planning  
Requirement specifications  
Test planning  
Testing and test reporting  
Build and version management  
Software development  
Technical support

**Methods, tools and technologies:**

**Main Tools:**  
Linux, Java, SQL, XML, XSL

**Others:**  
Windows, WebSphere application server, Eclipse

**Business area:**  
Infra solutions

**Project name:**  
elInvoice  
**Customer:**  
WM-data  
**Time involved:**  
11/2004-04/2005  
3 months

**Description of project:**  
Administration of company's elInvoice service during colleague sick leaves.

**Own role:**  
Specialist

**Professional Skills:**  
Requirement specifications  
Test planning  
Testing and test reporting  
Technical support

**Methods, tools and technologies:**

**Main Tools:**  
Linux, Java, Eclipse, XML, XSL

**Others:**  
Windows

**Business area:**  
Infra solutions

**Project name:**  
Developing Manager  
**Customer:**  
HLB Tietotili Consulting  
Oy  
**Time involved:**  
11/2003-10/2004  
24 months

**Description of project:**  
Taking care of development/design of new in-house programs.

**Own role:**  
Development Manager

**Professional Skills:**  
Deployment planning  
Deployment and installation  
Server administrating  
Server Implementation  
Maintenance  
Maintenance planning  
Software development  
Requirement specification  
Computer networking  
Database design – modelling  
System development  
System integration  
Build and version management  
Testing

**Methods, tools and technologies:**

**Main Tools:**  
Linux, Delphi

**Others:**  
Windows, Word, Excel, Citrix

**Business area:**  
Accounting

**Project name:**  
Firewall+Spam filter  
**Customer:**  
HLB Tietotili Consulting  
Oy  
**Time involved:**  
11/2002-10/2004  
20 months

**Description of project:**  
Installing and up-keeping firewall and spam filter.

**Own role:**  
Specialist

**Professional Skills:**  
Deployment planning  
Deployment and installation  
Testing  
Systems security architecture, specification and integration

**Methods, tools and technologies:**

**Main Tools:**  
Linux, IPTables, Spamassassin

**Business area:**  
Accounting

**Project name:**  
VPN  
**Customer:**  
HLB Tietotili Consulting  
Oy  
**Time involved:**  
11/2003-01/2004  
3 months

**Description of project:**  
Setup VPN gateway and installing client ends.

**Own role:**  
Specialist

**Professional Skills:**  
Deployment planning  
Deployment and installation  
Testing

**Methods, tools and technologies:**

**Main Tool:**  
Linux

**Others:**  
Windows, PPTP

**Business area:**  
Accounting

**Project name:**  
Database Mining  
**Customer:**  
HLB Tietotili Consulting  
Oy  
**Time involved:**  
11/2002-10/2004  
20 months

**Description of project:**  
To develop programs what merge needed information from multiple databases and report them at standard form.

**Own role:**  
Specialist

**Professional Skills:**  
Database and Data Management  
ERP Implementation  
Business process design and reengineering

**Methods, tools and technologies:**

**Main Tools:**  
Delphi, MSSQL, AS/400, DB2

**Other:**  
Rave

**Business area:**  
Accounting

**Project name:**

MSSQL server  
maintenance

**Customer:**

HLB Tietotili Consulting  
Oy

**Time involved:**

11/2002-10/2004  
20 months

**Description of project:**

Maintenance of MSSQL server

**Own role:**

Specialist

**Professional Skills:**

Database Administration and operation  
Server administrating  
Maintenance

**Methods, tools and technologies:****Main Tools:**

Windows, MSSQL

**Business area:**

Accounting

**Project name:**

Technical Administrator

**Customer:**

Yhteisöpalvelut R&K Oy

**Time involved:**

5/2004-12/2008  
4 years 7 months

**Description of project:**

Taking care of all technical details of company

**Own role:**

Administrator

**Professional Skills:**

Deployment planning  
Deployment and installation  
Server administrating  
Server implementation  
Maintenance  
Computer networking  
Testing  
Network architecture  
Systems security architecture, specification and integration  
Technical support

**Methods, tools and technologies:****Main Tool:**

Linux

**Others:**

Windows, EMCE

**Business area:**

Accounting

**Project name:**

CEO sick-leave

**Customer:**

Yhteisöpalvelut R&K Oy

**Time involved:**

5/2004-7/2004  
2 months

**Description of project:**

Runing daily business routines

**Own role:**

Substitute

**Professional Skills:**

Business process  
Work supervision

**Methods, tools and technologies:****Main Tools:**

Windows, Word, Excel, EMCE

**Business area:**

Accounting

**Project name:**  
Firewall+Spam filter

**Customer:**  
Yhteisöpalvelut R&K Oy  
**Time involved:**  
5/2004- (still going)

**Description of project:**  
Installing and up-keeping firewall and spam filter.

**Own role:**  
Specialist

**Professional Skills:**  
Deployment planning  
Deployment and installation  
Server administrating  
Testing  
Systems security architecture, specification and integration

**Methods, tools and technologies:**

**Main Tools:**  
Linux, IPTables, Spamassassin

**Business area:**  
Accounting

**Project name:**  
Help programs

**Customer:**  
Yhteisöpalvelut R&K Oy  
**Time involved:**  
5/2004-7/2004  
3 months

**Description of project:**  
In-house programs to handle different hand held tasks

**Own role:**  
Specialist

**Professional Skills:**  
Deployment planning  
Requirement specifications  
Test planning  
Testing and test reporting  
Software development  
Technical support

**Methods, tools and technologies:**

**Main Tools:**  
Linux, Perl, IIS

**Other:**  
Windows

**Business area:**  
Accounting

**Project name:**  
Technical Administrator  
**Customer:**  
Audio Riders Oy  
**Time involved:**  
2/1996-10/2002  
81 months

**Description of project:**  
To take care of all technical details

**Own role:**  
Technical Administrator

**Professional Skills:**  
Deployment planning  
Server administrating  
Deployment and installation  
Computer networking  
Requirement specifications  
Test planning  
Testing and test reporting  
Supervise of subordinates  
Technical support  
Software development

**Methods, tools and technologies:**

**Main Tools:**  
Linux, Windows

**Others:**  
Gcc, PBX, LAN, ISDN, ADSL

**Business area:**  
Specialized software development

**Project name:**  
Embled Sävelsirku  
**Customer:**  
Audio Riders Oy  
**Time involved:**  
3/2002-9/2002  
6 months

**Description of project:**  
To supervise and test "make of embled version of Sävelsirku"

**Own role:**  
Technical Administrator

**Professional Skills:**  
Deployment planning  
Requirement specifications  
Test planning  
Testing and test reporting  
Supervise of TKK nerds

**Methods, tools and technologies:**

**Main Tools:**  
Linux, Gcc

**Business area:**  
Specialized software development

**Project name:**  
Sävelsirku  
**Customer:**  
Audio Riders Oy  
**Time involved:**  
10/1999-10/2002  
36 months

**Description of project:**  
To develop elderly care computer program

**Own role:**  
Programmer/Developer

**Professional Skills:**  
Deployment planning  
Requirement specifications  
Test planning  
Testing and test reporting  
Software development  
Technical support  
Database design – modeling  
Maintenance planning  
Usability analysis

**Methods, tools and technologies:**

**Main Tools:**  
Windows, Delphi, MSSQL, Paradox

**Business area:**  
Specialized software development

**Project name:**  
Private Radio 32-bit  
**Customer:**  
Audio Riders Oy  
**Time involved:**  
1/1997-10/2002  
70 months

**Description of project:**  
To develop sound milieu program to use different kind of stores

**Own role:**  
Programmer/Developer

**Professional Skills:**  
Deployment planning

2009	Oracle OCA 11g DBA I

## Language Skills

Finnish	Native
English	Fluent
Swedish	Good
Portugues	Basics

## Competence

Initiative	I'm not afraid to open my mouth when I have something to say or solution to problem at hand. At team/group situation where we should archive something and nobody takes lead, I take it easily, but of course I give space to others too.
Flexibility	I'm capable to adjust myself to current situation, so I and rest of the team can reach wanted goal. I'm not afraid to make decisions when I have insufficient information.
Innovation	I'm "Gyro Gearloose", man who can find new innovative ways to do tasks. I'm capable of "out-of-the-box" thinking.
Self-development	I have always have need to learn new things and techniques.
Developing others	When it's possibe, I try to work as mentor, tell other "how and why" some things are done the way as they are done.
